## Retail Solutions - Supply Chain

### Protecting the Supply Chain

...available to you immediately by email. In addition all our vehicles are fitted with a satellite tracking system. Both of these systems allow us to provide complete proof of our service excellence.

**Key Holding and Alarm Response**  
Response is the key to damage limitation. The closer we arrive the less chance of unnecessary extra loss or disruption. Through our award winning use of innovation, we believe that we follow the fastest response times in the industry.

The largest dedicated response fleet in the UK and Ireland combined with our unique use of the TRACAlert system ensures rapid response.

The TRACAlert device is used to house the keys to your premises. The TRACAlert can only be accessed by an authorised TRACAlert. This intelligent logic based electronic key enables Securitas to provide a full Just-in-time service. As the keys are located on your premises and at our offices, we have a TRACAlert we are able to send the closest patrol vehicle immediately to site, dramatically cutting down response times.

## Response is the Key

Why go around the houses?

Follow the Securitas route

Securitas Mobile has a variety of ways to integrate the services... right to the complete security solution for your school.

## Keyholding and Alarm Response

- Reduce risk to staff
- Response time and damage

Our keyholding and alarm response services are a must have for all schools. It means that even if your staff have to be called in for your alarm to be activated, for a brief alarm or for an intruder. With the TRACAlert system, our service provides the school and its staff, ensuring no liability, with an instant alarm you will always have the keys and a response team ready to go. The early risk response time when arriving at the school and meeting, reduces the risk of loss or damage to your school.

## Mobile Patrols

- Visual deterrent to crime
- Proactive security solution
- Full audit trails

Our mobile patrols are a highly effective visual and physical deterrent used to prevent unauthorised people off site and along roads. Our fully trained, 100 trained mobile patrol officers, will patrol the school site. All officers wear the highly recognisable Securitas uniform and drive our branded vehicles, which appear as a strong visual deterrent. An authorised person or staff member, including the headmistress and staff, will be present. All our patrol vehicles are set up with our Global Reporting System (GRS), live of charge. This unique reporting system provides an accurate account of when and where our patrols have been on site and acts as proof of our world class service.

## Locks and Unlocks

- Reduce your carbon footprint
- Reduce energy consumption
- Reduce your carbon footprint

These services and solutions are more provided due to the strong energy crisis and energy footprint need to reduce their carbon footprint. Our fully trained and 100 trained staff, will therefore provide and ensure your school buildings, an operational you are in full compliance with the Energy Management Regulations. Our officers use heat of light and equipment, which also ensures that windows and doors are securely closed and locked, reducing energy bills, which also ensuring your site. Our agents will provide the most with our GRS system an detailed advice to provide you with complete reports of services provided.

Client     Select Advance Windows  
 Business     Double Glazing  
 Brief     Design and production of a 6 page leaflet.

**Fitting Service**  
 In addition to manufacturing PVC windows, doors, patios and conservatories, we also offer a full fitting service. We can take your home improvement or commercial project right through from conception to completion. Our team of fully qualified installers use the best products, from simple windows right through to full conservatories. They have a reputation for being trustworthy, tidy and can get the job done in no time at all.

**Our UPVC Profiles**  
 We buy our UPVC profiles from a central supplier and then assemble and manufacture them into windows and doors in our factory. This quality is assured to meet and exceed the best type of the major products in our profile. The difference between their product and other UPVC products, is that we have several chambers to support the most flow, but give a traditional insulation programme.

**The First Chamber System**  
 The first chamber system gives our UPVC products superior energy efficiency and durability. Two chamber UPVC profiles are available that they are suitable for use in commercial environments as well as domestic.

**Our Glass**  
 At Select Advance Windows, we use low E Glass as standard in all our UPVC products which gives greater thermal efficiency than ordinary glass. Our glass can also double glaze to give you even greater insulation.

**Low E Glass**  
 Low E Glass (also known as Low Emissivity Glass) has a special coating on one side of the glass, this coating increases the energy efficiency of the window by reducing the transfer of heat and cold through the glass.

**Our Guarantee**  
 We are so confident of the quality of our products that we offer a ten year guarantee on UPVC.

**Quality Assurance**  
 The UPVC profiles that we have been extensively tested and were awarded the British Board of Agreement Accreditation (Measurement Report Number 434) and ISO 9001 for their high standards of quality.

**UPVC Finishes**  
 White  
 The most popular choice. A crisp, clean look that requires little maintenance.  
 Beige  
 A warm wood grain finish that is less stark than white. This finish suits stained glass and leaded glazing.  
 Mahogany  
 If you are looking to create a period look, choose the rich and beautiful look of mahogany.  
 Golden Oak  
 For the rustic and rural look choose golden oak.

**Glazing Finishes**  
 Clear Glass  
 Our glass is environmentally friendly, highly insulating Low E Glass.  
 Patterned and Obscured Glass  
 An use in bathrooms or where extra privacy is required. Our patterned and obscured glass comes in various styles.  
 Stained Glass  
 We can supply beautiful stained glass panels for your doors and windows.  
 Leaded Glazing  
 Available in a variety of styles, to give your home a period look.

**Handle and Security Finishes**  
 White  
 If you want a simple look that will not detract from the UPVC then this is the option for you. Minimalist and plain.  
 Gold  
 For an eye catching finish to your windows or doors choose gold.  
 Silver  
 For the contemporary look choose silver.

**Conservatories**  
 The addition of a conservatory to your home is a fantastic and great way to add extra space and value to your home.  
 Our conservatories are made from the finest UPVC and are available in a variety of styles. They are also available in a variety of finishes, including white, mahogany, golden oak and stained glass. They are also available in a variety of sizes to suit your needs.

**Patios**  
 Our patios are made from the finest UPVC and are available in a variety of styles. They are also available in a variety of finishes, including white, mahogany, golden oak and stained glass. They are also available in a variety of sizes to suit your needs.

**Conservatory Types**  
 Conservatories are available in a variety of styles. They are also available in a variety of finishes, including white, mahogany, golden oak and stained glass. They are also available in a variety of sizes to suit your needs.

**ENVIRONMENTAL hygiene PRODUCTS LIMITED**  
 The UK's leading manufacturer and supplier of sackholders
